## The Senate Agricultural Committee Agrees to Amendment Providing for National Prohibition

(Associated Press Telegram)

Washington, June 27.—The Senate agriculture committee today agreed upon an amendment to the \$11,000,000 emergency agricultural appropriation bill providing for national prohibition.

Under the amendment the manufacture and sale of whiskey and wine would be prohibited after June 30, 1919, and the manufacture and sale of beer three months after the final approval of the bill by the President.

Members of the committee voting in favor of reporting the Morris amendment were: Democrats—Senator Sheppard, Texas; Thompson, Kansas; Kendrick, Wyoming; and Johnson, South Dakota. Republicans—Norris, Nebraska; Page, Vermont; Gronna, North Dakota, and Kenyon, Iowa.

The amendment was framed by Senator Norris of Nebraska as a substitute for the pending one by Senator Jones of Washington. The Norris compromise was adopted by the

committee by a vote of 8 to 3. Those opposed to the Norris amendment attempted to have it changed so as to permit the sale of beer six months after its passage and later proposed four months. Both efforts, however, resulted in defeat.

Chairman Gore said the bill with the new amendment would be reported to the Senate tomorrow and that an effort would be made to bring it up for consideration at once. Senator France of Maryland, who also held the proxies of Senators

Warren of Wyoming and Wadsworth of New York, all Republicans, voted against the amendment. Senator Gore, Democrat, did not vote.

Another test vote in the House on prohibition, the second in a week, resulted today in the adoption of a resolution 112 to 92, calling on the President to inform the House whether any ruling has been made by the railroad administration, the war industries board or the war trade board curtailing supplies to liquor manufacturers.

## STATE ENDEAVORS PETITION NATIONAL OFFICIALS FOR WAR PROHIBITION AND INCLUDING PERIOD OF DEMOBILIZATION

The Christian Endeavors attending the state convention in this city had an early start this morning when the intermediate breakfast was held at the Church of Christ at 6:30 o'clock. The County Junior Workers had breakfast at the same hour at 164 North Fourth street. From 8:30 until 9:45 simultaneous conferences on departmental work were held.

Rev. Wm. Foulkes D. D. of Philadelphia, conducted the Quilt Hour session and made a very impressive address. He spoke concerning the three tests that Christ had for the love which Peter had for Him. Rev. Foulkes spoke of the world's fire which is constantly surrounding young people and urged the Endeavors to forsake this fire forever and to see those things which are of much more value in life. There were also intermediate sessions this morning from 8:30 until 9:45 at the Central Church of Christ and at 9:45 there was a Quilt Hour session and a Lesson service for the intermediates. For the remainder of the convention time until 11:00 o'clock Friday night, the intermediates will attend the Young People's sessions. At 11 o'clock E. P. Gates, who has charge of the general conference on society work, spoke to the Endeavors on "The Society Committees." The official photograph of the convention was taken today at noon in front of the high school building.

This afternoon there was a parade of all delegates, from the High School, around to West Main to Mount Builders Park for an open air citizenship rally. Hon. Frank B. Willis, ex-governor of Ohio addressed the Endeavors and at 3:15 there was an athletic field meet. This evening will be a song service under the direction of Mr. Alexander at 7:30 o'clock. There will be the annual camp fire conducted by General Secretary Vandersall. Addresses will be made by Dr. J. C. R. Ewing, President of the Lahore Christian College, Lahore, India and by Dr. Isaac T. Headland, former missionary to China. At 9:30 this evening there will be the annual banquet of the

Alumni Association at the First Presbyterian church.

Program for Friday follows:

Lieutenant Fonck is called "the greatest living French ace." He is credited with bringing to earth a total of forty-five German airplanes in battle.

## GENERAL SEMINOFF IS ADVANCING INTO SIBERIA

London, June 27.—General Semenov, the anti-Bolshevik leader in eastern Siberia, again is advancing into Siberia from the Manchurian border, according to the Peking dispatch to the Times dated June 22. The Bolshevik forces opposing General Semenov, it is added, have been ordered to return immediately to Irkutsk to defend the Soviet cause in western Siberia, which is reported threatened by a counter-revolution.

## TRAGIC DEATH OF MAY MILLER IN PACKARD CAR

When a Pennsylvania passenger train from the west was pulling into the local station this noon, it struck May Miller, who was driving a Packard "Chummy" roadster, which she had just purchased a few weeks ago. She was killed instantly. The accident happened at the Fifth street crossing at 1:15 o'clock.

Probably the fact that she was new in the knowledge of driving a car, caused the accident, for she did not seem able to clear the track before the engine of the passenger train caught the machine. The impact carried the machine over the crossing and when it was cleared the machine became wedged between an empty freight car standing on an adjoining track and the passenger coaches.

The body of the woman was thrown fifty feet ahead of the battered machine and it is probable death came instantly.

A hurry call for ambulances was sent and two responded. The body was removed to the undertaking parlors of T. A. Ratzler, where it awaited the action of the coroner.

The deceased is survived by one daughter, Bertha. For years she has conducted a well known place in Harrison street.

The machine was a total wreck. Caught between the two cars, it was reduced to scraps. Even the padding was torn from the cushions, and the wheels and iron on the car was bent and twisted from all semblance of shape. It was necessary to pry it loose. Reports had it that another passenger was in the car, but when the wreckage was searched no body was found.

No arrangements have been made for the funeral.

## DRAWING OF NUMBERS IN GREAT DRAFT LOTTERY OCCURRED THIS MORNING

DETERMINES ORDER IN WHICH YOUTHS OF THE CLASS OF 1918 WILL BE CALLED INTO THE MILITARY SERVICE OF COUNTRY

## SECRETARY BAKER WHILE BLINDETFOLDED TAKES THE FIRST NUMBER FROM BIG GLASS BOWL

New Registrants Will be Placed At Foot of List In Each Class in the Order in Which Their Numbers Were Drawn Today, and All Placed in Class One Will Probably be Called Before the End of the Year—Only 1,200 Numbers Were Drawn Today In Comparison With 10,500 Drawn A Year Ago.

(Associated Press Telegram) Washington, June 27.—The drawing of numbers to determine the order in which youths of the classes of 1918 will be called into military service was conducted here today with much the same ceremony which marked the great drawing of a year ago. This time, however, it was a much smaller affair, and in view of the fact that the classification system more nearly determines the order of service, than does the actual numerical order, it was not surrounded with such dramatic interest.

The drawing was held in the great conference room of the senate office building, with Secretary Baker blindfolded taking the first gelatine capsule, with a number enclosed, from the glass bowl. It was No. 246. Nos. 1168 and 818 were the second and third, respectively, and thus the drawing continued to the end.

Big blackboards for checking the record were placed against the wall at the rear of the room, the numbers were written on the board as drawn and the board was photographed to make a permanent, incontrovertible record.

Secretary Baker, General March, chief of staff, Provost Marshal Crowder, Chairman Chamberlain, and members of the senate military committee and members of the house military committee stood about the table as the first numbers were drawn.

(Associated Press Telegram) Washington, June 27.—America's class of 1918 stood at attention today as the numbers assigned to each young man attaining his majority in the year ending last June 5 were drawn in the national draft lottery.

Historic events of a little less than a year ago were repeated as from a large glass bowl in a committee room of the senate office building were drawn the numbers representing 744,500 youths, the majority of whom within a few months will be enrolled in the forces fighting for democracy and against Prussianism.

Secretary Baker, members of the senate and house military committees, and other high government officials, witnessed the drawing by blindfolded men of the little capsules containing a "master number" to be applied in the 4500 registration districts of the country, according to the total registration.

The setting for the lottery was a replica of that of July last when the drawing of 10,500 numbers determining the liability for service of approximately 10,000,000. In the country at large there was little of the excitement that attended the first drawing. A year of war had served to calm the American people. The lack of excitement, however, was largely occasioned by the fact that today's drawing was fraught with only slight significance owing to the questionnaire method of classification.

Today's drawing was to determine only the relative summoning to the colors of the new registrants as finally classified by the local boards under the questionnaire system. All of the youths whose numbers were drawn today will be assigned to the various fire classes on the basis of information furnished in the questionnaires now being mailed out. The new registrants will be placed at the foot of the list in each class and in which their numbers are drawn today. In that respect only will today's drawing affect the registrants.

Statements made recently by Provost Marshal General Crowder and Secretary Baker indicate that all of the new registrants placed in Class 1 will be called before the end of the year. Accordingly, not more than a few months will elapse at the most between the calling of men in Class 1 whose numbers are among those drawn first and those whose numbers are among the last to be taken from the bowl.

The first few numbers to be drawn were taken from the bowl shortly after 9:30 o'clock by Secretary

Baker. Later, attaches of the office of Provost Marshal General Crowder were blindfolded and withdrew the capsules from the bowl. As the numbers were drawn, they were announced and written on a large blackboard. When the blackboard was filled, it was removed to be photographed and another substituted. This operation was repeated during the more than three hours required for the drawing.

In comparison with the 10,500 numbers required to be drawn a year ago, only 1200 numbers were drawn today. The district having the largest (Continued from Page 1.)

## TWENTY MINERS KILLED TODAY IN EXPLOSION

(Associated Press Telegram) Virginia, Minn., June 27.—At least twenty miners are known to be dead as the result of an explosion of dynamite, set off by a bolt of lightning during a heavy storm at the Silver mine of the M. A. Hanna company today. Thousands of tons of ore fell as a result of the explosion, burying the men. It is believed others were caught. Several others were injured seriously.

## VON KUEHLMANN TO BE REMOVED IS PREDICTION

(Associated Press Telegram) London, June 27.—The removal from office of Dr. Richard von Kuehlmann, the German foreign secretary, can be anticipated, judging from comments in conservative and pan-German newspapers on his recent speech, the Berlin correspondent of the Frankfurter Zeitung says, according to a Central News dispatch from Amsterdam.

## PERSHING WILL SEND REGIMENT TO AID ITALY

(Associated Press Telegram) Washington, June 27.—General Pershing, under instructions from Washington, has selected a regiment of infantry to be sent immediately to Italy. Secretary Baker made this announcement today. The secretary would not disclose the identity of the troops.

## ITALIANS HOIST THEIR FLAG OVER BUILDING

(Associated Press Telegram) Rome, June 27.—During a celebration of the Italian success in the Piave today a crowd rushed to Capitoline hill and burst into the Caffarelli palace which before the war was the seat of the German embassy and which is still German property. All portraits of the German emperor were torn down and the Italian flag was hoisted over the building.

## AUSTRIAN POST WAS WIPED OUT

(Associated Press Telegram) Rome, June 27.—An Austrian advance post in the mountain region was surprised by Italian troops yesterday and wiped out, the war office announced today. Along the front as a whole the activity yesterday was nowhere of marked intensity.

## BRITISH TAKE PRISONERS AND MACHINE GUNS

Capture Strong Point of The Germans West of Vieux Berquin

## HOSTILE ARTILLERY ACTIVE ALONG NUMBER OF SECTORS

Americans Dominate German Positions from Hill Near Torcy

(Associated Press Telegram) London, June 27.—British troops last night took a German strong point west of Vieux Berquin, east of Hazebrouck, and captured prisoners and machine guns, says the official statement from Field Marshal Haig today. The German artillery has been active on the Lys front. The statement reads:

"By a successful minor operation during the night we gained possession of a hostile strong point west of Vieux Berquin and captured a number of prisoners and some machine guns."

"The hostile artillery has been active at different points between Givency and Robecq and with gas shells against the northeastern portion of the forest of Nieppe."

## ALLIES AWAIT FURTHER EFFORTS OF THE ENEMY

(Compiled from A. P. Dispatches)

Along the western battle line as well as on the mountain and Piave sectors, of the Italian front the Allied armies await further enemy efforts. Infantry activity is confined to local attacks at various points. On the vital stretch of the battle front between Torres and Rho, the most important action of the past few days was the 188th that in which the American troops took from the Germans a commanding hill position near Bellem wood, northwest of Chateau-Thierry. Besides gaining the hill the Americans took 264 prisoners, including seven officers. From the hill the Americans dominate the German positions for some distance beyond in the direction of Torcy.

It is believed that the German command is about ready to launch another stroke against the Allied lines. The artillery activity remains about normal on important sectors, but aerial fighting has increased markedly.

Thirty-six German machines were brought down or forced to land in a damage condition Tuesday by Franco-British airmen, while Berlin claims the destruction of 12 Allied airplanes the same day. German airplanes reached Paris Wednesday night. There is much sickness prevalent among the German troops, but it is not believed to be having any effect on plans for a renewal of the enemy offensive.

The Italians are busy taking count of the guns and material captured from the Austrians who fled across the Piave. In the mountain zone the fighting has died down to local attacks.

Unconfirmed reports received in Switzerland from Berlin are that Foreign Secretary von Kuehlmann will resign in consequence of his speech in the reichstag Tuesday.

## REPORT GERMAN WAR PRISONERS CONTROL IRKUTSK

(Associated Press Telegram) Harbin, Manchuria, Tuesday, June 27.—Austro-German war prisoners are in complete control of Irkutsk, or the trans-Siberian railway, according to reports received here from that city. The prisoners are commanded by Austro-German officers.

Berlin advices transmitted through Copenhagen to London, Tuesday, reported that Irkutsk had been captured by Czech-Slovak troops under General Alexeff, the former Russian commander-in-chief. The Czech-Slovaks, having served in the Austrian army, formerly were prisoners in Russia. This may account for the conflict in reports on the situation at Irkutsk.

## PRISONERS IN GERMAN CAMPS

(Associated Press Telegram) Washington, June 27.—Captain E. J. Presper, medical reserve corps, attached to British expeditionary forces, is a prisoner of war in Germany. He lived in Philadelphia, Pa. Private Edward W. Premier, New Haven, Conn., also is reported a prisoner.

## THE GASOLINE SITUATION VS. GERMAN PROPAGANDA

A variety of insidious German propaganda has been directed against the automobile industries of this country. A number of alarming and malicious stories have broken loose simultaneously in a dozen of the larger cities and while the stories may vary in some unimportant details, the purpose of them all has been the same, and that is to alarm the motoring public and to create, if possible, a state of doubt and uncertainty and panic regarding the future of the motor car.

One story which has been industriously circulated was that beginning July 1st the government would order the discontinuance of the use of passenger cars on Sundays, for a period of twelve consecutive Sundays. Another Hun lie was to the effect that the government would shortly issue gasoline cards for a ration of one gallon per day to all passenger cars and that in the very near future it would be necessary to use a mixture of half gasoline and half kerosene. All these and similar stories are as false as they are malicious.

There is no shortage of gasoline as yet in this country; there is no shortage of gasoline transportation. It is not to be denied that there is a possibility of a gasoline shortage in the future and that it will be necessary eventually to conserve and economize on the use of gasoline, but at the present time there is no shortage and the government is not contemplating any action of an alarming nature.

It is necessary, however, to conserve fuel, oil and coal, and the recent order of the government to this effect was directed solely at the use of pleasure yachts and it was explicitly stated in the bulletin sent out by the fuel commission that "this order does not apply to gasoline."

Congress has passed the Oil Leasing Bill, providing for the opening up of over 6,000,000 acres of oil land in the west. Not more than 5,600 acres may be leased to a corporation and 560 acres to an individual. The government is to receive one-eighth of all the oil obtained.

This is no time to be hysterical; be sensible, sit tight and don't rock the boat. It is good advice to every motorist at this time. Pay no attention to wild and improbable rumors affecting the use of motor vehicles. It is the patriotic duty of every automobile owner to conserve in service by co-operating with the dealer and the service station in a movement to close all service stations at night and on Sundays.

Thirty thousand skilled mechanics can be placed at the service of the national government. Unnecessary service be eliminated. Every motorist should learn to operate and care for his own car. Drive your own machine, make your own repairs and HELP WIN THE WAR.

**Divorce Petition.**  
Howard M. Fleming has filed suit in the probate court for divorce against Ella M. Fleming. The petition states they were married November 12, 1913. Plaintiff charges extreme cruelty in that defendant deserted him on September 15, 1917, refused to do any of the household duties, and the petition also makes allegation of statutory offenses.

**Names Numerous Causes.**  
As a sequel to a case in police court whereby Leroy Stuthard was bound over to common pleas court in the sum of \$500 for criminally assaulting his daughter, aged 14, Sarah E. Stuthard today filed a petition for divorce against Leroy Stuthard. The petition states they were married June 16, 1903, in Fayette county, and that three children were born to them, Nina, 14, Irvin, 12, and Manuel, 10. The plaintiff names a co-respondent and cites the incident for which Stuthard is now in jail awaiting the action of the common pleas court.

She also states he threatened her, shaking him rather roughly, "how did you enjoy yourself?"

"It was marvelous," said the other, rubbing his eyes. "A phantasmagoria of emotions, meetings, greetings and flatteries, loves, hates, envies, and ecstasies. Dear me, I shall have enough to think about for a long time to come. And now—be honest with me—where have I really been?"

His companion smiled sympathetically. "Just dreaming," he said.

**Odd Buildings in Far East.**

Of the many strange buildings and temples in the far East, says a writer in the Wide World, there are none more wonderful than the 450 temples of the law at Mandalay, in upper Burma, known as the Rutholdaw, "Royal Merit." The group consists of a large central pagoda surrounded by hundreds of smaller white temples or shrines. They were erected by Aun-shay-min, who ascended the throne on the death of his brother in 1857. The latter was cruelly murdered by his two nephews, and it appears that this very much affected the new king. Not only did he devote his energies to peace, but erected this strange group of temples, each one of which contains a slab on which is engraved a portion of the Buddhist Bible. The holy tablets are made of soft marble or alabaster, each slab being about the size of a large, old-fashioned upright tombstone. On both sides are engraved chapters from the Buddhist scriptures. Over every slab is erected a canopy surrounded by a gilded framework of metal with small tinkling bells. The temples are situated in a beautiful wooded valley and seen from the surrounding hills they present a fascinating picture.

## THE RETURN

By TOM MASSON.

(Copyright, 1918, by Western Newspaper Union.)

Two souls were together in space. Space is a particular combination of unconsciousness not bounded by a horizon. A soul is an idea. When anyone knows what it is, then it is not, and when anyone doesn't know, then we don't know whether it is or not. And this is simply by way of explanation.

Said one soul to the other:  
"I'm tired—tired of drifting—tired of doing nothing."

"Get born," said the other soul. "It's amusing and exciting and interesting. It has a certain charm of novelty. See life."

"But," said the first soul, "suppose I don't like it; suppose I can't do as I please; suppose I am the victim of circumstances—what then?"

"Get born," persisted the first soul again. "I'll stay here and keep tab on you. Get born, and when you want a change, just ask me. I'll be your guardian."

"How shall I know you? When I am in that condition I may not be conscious of you."

"That's easy. You will not have to be directly conscious. Don't fear. I'll be here. When you want a thing, ask for it. I'll give it to you. Come, now, be off. Here's the old world passing by."

So the earth soul was born. And at the end of a certain time he said, half to himself, "I want to be a Christian."

And he became a Christian. He humbled himself in the dust, he forgave his enemies, he forswore the world, the flesh and the devil. Then he said to his mind: "Oh mind, what is the matter with you? You are restless." And the mind said: "Yes, I am restless. I must know things. To be consistent is the penalty of the unimaginative. Besides, if you don't know all the arguments against your faith how can you fight for it?"

"I never thought of that," said the soul.

And at the end of a certain time he said, half to himself: "Make me an atheist."

And he became an atheist. From belief he drifted to doubt, from doubt to agnosticism, from agnosticism to cynicism, from cynicism to rallery, from rallery to asceticism, from asceticism to stoicism. And then he said to the mind: "Oh mind, what have you been doing to me?" And the mind replied: "We are but seeking the truth. The phases you have been through are merely incidental; all the time you have been getting nearer the goal. Are you not more truly moral than you were? Do you not perceive that these processes of rationalization are leading you to higher altitudes?"

"I perceive nothing of the sort," said the soul. "In just the way you have tried to teach me. But I confess that through your negative methods I have gained some ground, for now I know this: That character is three-fourths of life, and as for you, O mind, you are a shadow, only good for what you omit."

And so again at the end of a certain time the soul whispered half to himself: "Make me a philosopher." And he became a philosopher. Then he said to the mind: "Oh mind, allow me to take back what I said. I perceive now that you indeed are the only reality. Nothing exists except as it exists in you. What I have hitherto regarded as pleasure and pain are merely subjective conditions and have no form or substance except as they exist in you. And now I am satisfied. Having discovered the limit of all things, I am content to go. Let me therefore leave this world even as I came into it."

"Well, well," said the guardian soul, shaking him rather roughly, "how did you enjoy yourself?"

"It was marvelous," said the other, rubbing his eyes. "A phantasmagoria of emotions, meetings, greetings and flatteries, loves, hates, envies, and ecstasies. Dear me, I shall have enough to think about for a long time to come. And now—be honest with me—where have I really been?"

His companion smiled sympathetically. "Just dreaming," he said.

## Milady's Boudoir

The Morning Grouch.

Not being able to become really active and energetic mentally and physically until the latter part of the morning, is a familiar complaint at this season. If you find this applies to your particular case, take yourself in hand and resolve to wake up bright and cheerful and brimful of energy, even if you have to resort to drastic methods to accomplish the desired results.

In this way you will save yourself the humiliation of the resultant grouch so often occasioned by the breakfast table remarks. Leave the sleepy, unrefreshed feeling behind your bedroom door and begin the day filled with the joy of living.

When you awake at your usual rising time, do not give yourself ten or fifteen minutes to make up your mind to get out of bed. Do so immediately, and after wrapping your bathrobe about you, stand before the open window and take ten deep breaths from the diaphragm, breathing slowly, holding for a brief time before exhaling, and then exhale slowly.

After this spread a large Turkish rug or bath rug on the floor, remove your bathrobe and exercise in the following manner: First, stand erect and, raising one foot, by bending the knee, bring the knee up to the chest by clasping it with both hands. Repeat this movement ten times. Then throw back the shoulders as far as possible and extend the arms at full length level with the shoulders. Now touch the hands together in front and then at the back. Continue this movement twenty times.

For the third exercise lie flat upon the mat, face downward, and making the muscles of the arms and legs tense, raise the body on the arms with palms outspread upon the mat and supporting the weight of the body. After repeating this movement several times, turn over on your back, and tense the muscles of the right leg, drawing the knee up to the chest. Exercise the left leg in the same manner, and when you feel fatigued change to another movement.

Fat of some kind is the basis of all good cold creams, as this article is needed to feed the pores. Creams are troublesome to make, because they require careful mixing and constant beating. In making all creams and emulsions, the manner of manipulations is about the same.

There is a face cream that I can recommend because it contains no animal fat to induce a growth of hair on the face. Rosewater, four ounces; almond oil, four ounces; white wax, one ounce; tincture of benzoin, one drachm.

Into a double boiler put the almond oil and add to it the white

wax and one ounce of spermaceti, which have been chopped fine. Let these melt, but not boil. The water in the lower vessel must just simmer, never boil. Turn them out into a bowl and beat briskly with an egg beater, scraping down the sides and keep on beating until it is all smooth and creamy.

When the mixture has cooled, add the rosewater and the benzoin, drop by drop, beating without stopping until the cream is quite cold. If the odor of rosewater is not liked you can substitute any other water you wish.

All creams and pomades should be put up in small porcelain or glass jars, which can be closed tightly to exclude the air, else they will become rancid and unfit for use. Cucurbit juice is one of the best natural whiteners for the complexion. There are two ways to extract the juice from them. One way is to select the cucumbers ripe enough for table use and cut them very fine and finally pound them to a paste. Fill a cheesecloth jelly bag with this pulp and squeeze out all of the juice. The second manner is to slice them very thin, skin and all, and put them in a porcelain stew pan. Add just enough water to keep them from burning and simmer until soft and mushy. Strain first through a sieve and then through a jelly bag.

## Every Day Etiquette

"Where should a man walk when he is acting as an escort to two ladies to the theater," asked George. "A man takes the outside of the walk. In escorting two ladies to the theater he seats them together and sits nearest the end himself. Of course this may be modified according to circumstances and he may sit between the ladies, but by taking the outside seat he prevents a change of them from being inconveniently by the occupant of an adjoining seat," said his father.

"A man friend is sick in the hospital. What would be the proper way for me to extend my sympathy?" asked Emma.

"Write him a note of sympathy, but don't make it too personal so far as you are concerned," answered her aunt.

## CAPT. C. W. MONTGOMERY LANDS IN ENGLAND

Mrs. Charles W. Montgomery of Granville street, received a cablegram on Wednesday evening telling of the

CAPT. CHARLES W. MONTGOMERY, safe arrival overseas of her husband, Capt. C. W. Montgomery.

Capt. Montgomery is captain of Company K, 329th Infantry and has been stationed at Camp Sherman. This cablegram indicates that he has landed in England.

## TAME BOLTS WERE

Columbus, June 27.—Bill O'Dowd of Wayne, Ind., went through 10 tame, uninteresting rounds with honors about even in the main bout of the boxing show staged by the United Commercial Travelers at the Goodale Street Air-dome last night.

Without any particular damage being done to either and with very few blows of any consequence delivered, the bout looked as fresh as when they started when the final bell terminated the bout. O'Dowd started as the aggressor and went about half way down the middle of the leading round much damage. Mason cut in at the half round and evened the going with the Columbus boy.

The real bout of the evening was between Eddie Erb of Columbus and Johnnie Shevlin of Cincinnati, in which Erb, as usual, cut right in at the first bell and carried the fighting to his opponent all the way.

Johnny Martin of the West Side beat Leo Maddox, a boy from the burroughs, in a four-round affair. Martin had the victory by a knockout in the third round of the bout.

At the opening of the evening, Cliff Martin of Columbus and Pete McGuffey of Lorain, at present stationed at the barracks, went four rounds. At the final bell, McGuffey was the going, but Walter Hughes acted as referee.

Walter Hughes acted as referee, and the bout was between the semifinal and main bout, Judge Roth of the T. H. Eberly undertaking parlors, ruling as crowd and made a plea in behalf of the war shaving stamp campaign that met with heavy approval. Only a small crowd was on hand to witness the sport.

## GOOD CARD AT ACRYON RACES.

Akron, June 27.—A good card of horses to decide the afternoon racing program at Fountain Park track yesterday. The greatest crowd of the week was present and the track and weather conditions were ideal.

The biggest upset of the program was in the Portage Stakes for 2-year-olds, in which the favorite, Blanche Carter, was defeated by a heavy favorite, was distanced the first heat. Grand Climax, second choice, won after running a close second in the first setto.

Sam Hurst, an outsider in the 2:13 race, won after Lady Wreath and Castaway had each taken a rest. Eddie Todd Temple, Lady Wreath is controlled in Columbus.

Bert Wilkie won the 2:21 pace after a hard-fought race. The feature event for today is the free-for-all pace, bringing together five of the greatest wrigglers in the country.

## THE MARKETS

**Wall Street.**  
New York, June 27.—The rise in specialties and war shares which accompanied yesterday's bull market was resumed at the active opening of today's stock market.

The market reflected various cross currents during the busy forenoon, leaders yielding fractionally in the first hour. This was followed by another upward movement, United States Steel featuring the advance.

Liberty 2 1/2's sold at 95.50 to 96.61; first 1's at 94 to 94.30; second 1's at 94.30 to 94.82 and 4 1/2's at 96.30 to 96.40.

## Chicago Grain and Provisions.

Chicago, June 27.—Excessively high temperatures in the southwest where cool weather was hoped for had a bullish influence today on the corn market. Opening prices which varied from unchanged figures to 3c higher, with July 1-5 1/2 to 1.65c and August 1-1/2 to 1.45c were followed by material gains all around.

Soaring gave strength to oats. After opening 1/4 to 3/8c higher, with August 6 1/2 to 6 3/4c the market moved near the upper side of the initial range.

Provisions hardened with grain and hogs. Trade, though, was light.

## "A HUN IN THE ADRIATIC."

THE feats of the Italian Navy in the Adriatic and the Mediterranean have been no less spectacular and important to the allied cause than the fighting of the Italian armies in the Alps and the other portions of the Austrian front.

The accompanying picture of a mine captured by an Italian mine sweeper in the Adriatic is one of the interesting features of the Italian War Exhibit now being shown in this country. The exhibit, consisting of war trophies and photographs, is an entertaining visualization of Italy's participation in the world war.

The mine shown in the illustration

is one of the thousands sown by Austrian mine layers and mine-laying submarines in the Adriatic for the purpose of destroying commerce of the allies and harassing the lines of communication of the allied armies in the East. To the vigilance of the Italian Navy is due in a large measure the fact that there has been no serious interference from this source with the plans of the allies in the Balkans and in the Far East.

A mine of this kind filled with several hundred pounds of high explosives floats on or near the surface and is exploded by contact. The contact points may be noted near the top of the device.

## DISTURBANCES RETARD LAYING

The difference between early-laying pullets and late-laying pullets may be the difference between profit and loss in poultry keeping. Retarded laying, therefore, is one of the things to be guarded against by all poultry keepers, whether on a large or a small scale.

Normally, laying begins when growth ceases. Individuals of the small, precocious breeds may begin laying before they cease growing. That, though likely to be of some permanent disadvantage, need not give the grower serious concern. Individuals, of whatever breed, may fail to begin laying at maturity, and that is a matter of serious concern to every poultry keeper. The pullet that fails to become an egg producer at maturity, instead of being an asset, becomes a dead expense, absorbing a large part of the profit that she may make in later life.

Almost without exception the pullet whose growth from hatching to maturity has been regular, not subject to checks and interruptions, is an early layer. A check to growth at any stage, according to poultry ex-

perts of the United States Department of Agriculture, is likely to retard laying. In support of this statement, the fact is pointed out that it is not unusual to find May hatched pullets laying earlier than their sisters that were hatched in April and were retarded in the early stage of their growth by unfavorable weather. Retardation by weather conditions, however, is only one of many things that may check the normal growth of a pullet, and defer the beginning of her usefulness as a productive fowl.

Egg production depends upon activity of the reproductive organs, which should begin at or before the cessation of physical growth. Apparently, influences unfavorable to the development of the body are still more unfavorable to the development of the reproductive organs, and it is not uncommon to find pullets of apparently perfect outward body development in which egg production is deferred for several months.

Any disturbance affecting the habits, nutrition or comfort of a pullet at any previous stage of life may retard laying at maturity, and, therefore, is to be assiduously guarded against. Shifting from place to place or changes in diet may constitute a sufficient disturbance to retard laying. In fact, these are common methods in use among poultry fanciers to retard the laying of pullets that they desire to keep in condition for exhibition as pullets. It follows, therefore, that the disturbances encouraged by fanciers for exhibition pullets are among the things that must be avoided by poultry keepers whose object is to develop pullets into early egg producing hens.

The fact to be borne constantly in mind is that the main factor in egg production is activity of the reproductive organs, and that the development of those organs is continuous from the earliest stages of the growth of the bird, instead of beginning, as was once supposed, at or near maturity. Pullets about to begin laying are more sensitive to disturbances than at earlier stages of their growth, and therefore require greater care in handling, but disturbances retarding growth even of small chicks are likely to retard the beginning of egg production.

Every poultry keeper, therefore, who is growing pullets for egg production will need to exercise care from the time the chicks are hatched until they become mature hens to make sure that their growth is regular, not subject at any time to checks and disturbances. All other factors in egg production are secondary to activity of the reproductive organs, which depends largely upon regularity of development. Without this and an egg is produced, though every other factor may be sufficient, and with it eggs may be produced, though every other factor is inadequate. Secondary factors are nourishment, regularity, comfort, ventilation, exercise, cleanliness, varying greatly in value, but ranking about in the order named—U. S. Dept. Agriculture.

## SOLDIERS' LETTERS

E. H. Reber, formerly in the employ of the Ohio Electric company, now stationed at Camp A. A. Humphrey, Va., has written the following letter to relatives in this city.

Camp Humphrey, Va.  
We loaded our baggage and ourselves in six big army trucks at Camp Sherman at 12:30 Tuesday and got to union depot at 1 p. m. Loaded on the coaches, one a combination baggage and coach. A guard was placed at each door so no one could leave the cars. We were supposed to leave on number 4 at 3:20 but did not leave until 3:45. Our train consisted of 14 coaches. There were two more car loads of soldiers from Camp Taylor.

In the baggage part we had our eats and luggage. I was detailed by the captain to help with the eats and help serve, so I was in the car with him. We started to get things ready about five o'clock and I cut and sliced 20 loaves of bread. We opened the canned goods, canned beef hash, canned beans and canned beef and blackberry jam. We telegraphed ahead for coffee to be put on at Athens but when we got there they had made a mistake and put it on a train ahead of ours, so we made arrangements with the dining car and soon had eight gallons of coffee. We had to give each man a little of each, (not very much). We fellows that did the serving had plenty to eat as we took ours out first and plenty of it. We served breakfast the next morning at 6:30 when we got to Harper's Ferry, where we got coffee. The officers were given and much money to use for coffee and what they didn't use they bought candy at Washington and gave to us.

I was in car number 1278 and our engine number out of Chillicothe was 5023. I watched all the stations as we passed and tried to get all the names as we passed, but some of them were hard to get, we went too fast. I have about 65 names down in my book of those that I got.

We went through Hamden, Athens and Parkersburg. At Parkersburg we moved our watches ahead one hour, eastern time.

The Red Cross met us at the station at Parkersburg and gave each man cigarettes, candy and pop. I had to give my cigarettes away as I had no use for them. At every station we were greeted by lots of people and girls came to the windows and shook hands with us.

Gee, but the scenery is pretty along here, the Ohio river and all talk about rocks at Black Hand, these are whole lots larger and prettier. We got another engine at Parkersburg which made us a double header.

We got to Clarksburg, W. Va., about 8:30 p. m. still daylight, and a sure busy place. Next to Clarksburg was Grafton, W. Va., a busy railroad town. Saw an awful large round-house with lots of engines and cars. I don't remember much after we left Grafton for we turned the light low and tried to get some sleep. We were all hoarse from yelling and singing. When I woke up we were in Cumberland, Md. It was just getting daylight.

The men were placed in two seats facing each other. I woke up about 3 a. m. We were crossing the Cumberland mountains and I looked out of the window to see the sights. It was moonlight and the sights sure were pretty. One could see the mountain ranges and pretty sights. When we were getting over the mountains you could look away down the hill on towns, looked as though they were a mile down the hill.

After leaving Cumberland we followed the Cumberland river for a long ways. It was awful foggy, but we sure saw some pretty scenery. Also went through the Cumberland Gaps and saw rocks and rocks.

On both sides of the tracks there were rocks and rocks. The track was cut through solid rocks, and the river runs over a rock bottom like the Licking does at Dillon's Falls. The next town we went through was Harper's Ferry. Here we went over trestles that would put the one on the O. E. in the shade. It looked pretty far down to the ground.

After we left Harper's Ferry we followed the Potomac river and saw some more pretty sights. You could see all the big rocks and cliffs sticking out on the other side of the river. We were on one side along a hill.

We passed through 33 tunnels, some long and some short. We almost choked by the smoke and sulphur fumes, in the long ones. We got to Washington, D. C. at 10 a. m. and left there at 10:45 over the R. F. & P. R. through an underground passage. The union depot at Washington is a fine place. The baggage tracks are run by storage batteries and all the men have to do is guide them around the platform.

I saw the Washington monument and some pretty buildings, could not see the capitol. We came 17 miles to a station called Accotink. We un-

loaded there at 11:30 and as there were no trucks to meet us, we had to march to the camp and leave our baggage at the depot.

We were awful dirty and hungry when we got to the camp. Had to walk about 7 miles over rough roads, all new roads and muddy. We didn't get anything to eat until 4 o'clock, and all were good and hungry.

When we unloaded and saw what a place we struck we were all ready to go back to Camp Sherman. This sure did look bum to us. It sets in the middle of a big wilderness of pine trees and there are roads to make, ditches to dig and stumps to dig out.

Well I guess I have told you about all I can, now. When I get home I can tell you a whole lot more and a whole lot better than I can by writing.

E. H. REBER.  
Camp A. A. Humphrey, care Y. M. C. A. No. 20, Va.

The following letter has been received by Mr. and Mrs. Charles W. Harner from their nephew, Elroy L. May, 2nd engineer train, A. E. F.: "American E. F., France, April 20, 1918:

"Dear Aunt and Uncle—I received your letter while absent from the train, and while it was a distinct surprise to me to learn that Lester was 13 years old, I guess I shall recover sufficiently to write a word in reply.

"We left El Paso, Tex., on August 21, 1917, and went to Newport News, Va.; from there we went to New York, but at that place I did not get ashore.

"We had a very pleasant voyage across; only one night was there any storm. It did not amount to much. Our boat had 900 mules aboard. We lost three on the way across. We saw no submarines. On landing at a port of debarkation we went to the corral there and worked as caretakers for mules for some weeks. After leaving that place we came overland on trucks to a station behind the lines. I know you will be interested in the way the French folks farm. There are but few farm houses as we have them in the states. Every one or two miles is a village. All farmers around the vicinity live in the town. Each has his barn, pigpen and the like under one roof.

"This, I suppose, is due to the fact that they want to conserve ground; also, it is convenient. All farm, more or less, on the community plan. The houses are very old. They are generally roofed with tile. Each village has its wash-house. All the washing in the village is done there. Last winter I saw on the coldest day women at work washing. The wash-house is about 10x20. Through the center is built a low wooden trough along the side of the trough and below the top about two feet is a kneeling platform. They kneel on this and wash the clothes by placing them on the inward shape of the tank and rubbing them with a brush. A large portion of the work is done around the villages and towns by women. This is due to war.

"On our way across to France we passed through many interesting places. Everything was very dreary-looking since it was mid-winter. We are now located in a village about 15 miles back of the trenches. My duties are such that it will not be likely in ordinary circumstances that I shall see the front-line trenches.

"The weather has been very squally for the last two weeks. Today the sun shone for an hour and then this evening a few flakes of snow have fallen.

"I suppose that the Mr. is going to raise all that he can this coming summer, even forgetting the war. The prices of foodstuffs must be quite attractive. Tell Lester I shall see him again some day. Tell him to

grow big and strong and always go to school, for out of the rugged and true conditions of farm-life come the best men.

"Tell him that he must be big and strong and well-educated, not only for his own good, but that he can be a better American for it.

"Give my best to all.  
"Elroy L. May,

## TOMORROW, JUNE 28, WILL BE NATIONAL WAR SAVINGS DAY

In appealing to every man, woman and child to pledge themselves on or before tomorrow to save constantly and to buy as regularly as possible War Savings Stamps, the President of the United States, Woodrow Wilson, has expressed the hope: May there be none unenlisted on that day"—June 28.

Are you enlisted? Have you signed the pledge? Licking County must sell \$1,236, 180 worth of these War Savings Stamps this year. The year is half over but the total sales to date are less than half the year's allotment.

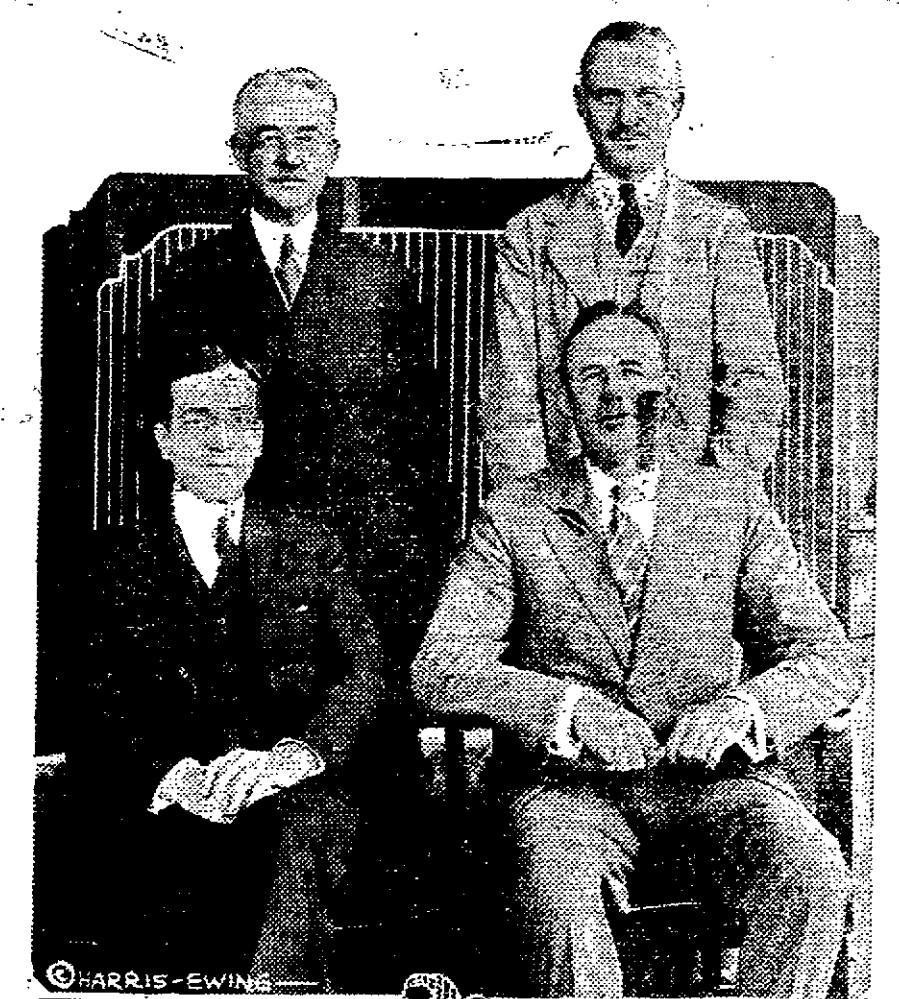

Don't think for a minute that War Savings Stamps are for children alone. To buy \$4000 worth of stamps every day in the year is not a child's job an dthe quota for Licking County is \$1,000 daily all year.

Join the Limit Club, if possible. The purchase of 200 W. S. S. June Price \$834 makes you a member. The price advances to \$836 July 1st.

War savings Stamps are the world's best investment; 4.27 per cent, tax free, absolute security and ALL of your money back, principal and interest anytime upon 10 days' notice. Uncle Sam guarantees it. Buy W. S. S. not only because they are the best investment in the whole world today, but because their purchase is a patriotic duty. Licking County has 1200 young men in the U. S. Army and Navy. Back them up! Buy W. S. S. Tomorrow.

### THE MEN BEHIND THE GUNS AT HOME: WAR SECRETARY BAKER AND HIS AID

Seated are War Secretary Baker, at left, and Benedict Crowell. Standing are Edward R. Stettinius, at left, and Frederick B. Keppel.

In peace times the secretary of war for the U. S. A. had only one assistant, and that one was plenty. The tremendous duties attached to the department since the war started have made it necessary to add two more assistants to Secretary Baker's staff. Benedict Crowell is first assistant, the office in existence before the war. Edward R. Stettinius has been added as the department's expert on business administration, in charge of both the production and purchasing for the department. Frederick Keppel is in charge of the non-military activities of the department, such as the commission on training camp activities.

## SQUEEGEE TREAD TIRES

### The Survival of The Fittest

DIAMOND Squeegie Tread Tires are now the only standard brand tires on the market made with handsome Black Tread and Red Sides.

Others, imitating Diamond in color combination, have failed to pass the strenuous tests of quality demanded by actual service. They imitated color only—Diamond quality they could not duplicate.

Thus always with imitations!

Motorists who drove on Diamonds in 1917 and previous years demand Diamond mileage again in such numbers that our factories are taxed to capacity.

### AMUSEMENTS

**GRAND.**  
Proud as Lucifer was Myrander Van Dyun in the Triangle play "Regenerates" at the Grand theatre tonight and tomorrow. He was proud of his ancestral home and of his influence and, above all, of the blue blood which coursed through his veins. "Regenerates" was his first question when he met a stranger and on this hinged his whole character. The one desire of his life was the union of his two granddaughters, Catherine Ten Eyck and Pell Van Dyun, for it meant the perpetuation of the family name without a break in the purity of the blood. And then came a grim tragedy which at one blow shattered the old man's dearest dreams and left him a broken man. But it remained for the tiny hands of a child, through whose veins flowed the Van Dyun blood and the red blood of the commoner to open the eyes of this proud old man in this glowing Triangle play, "Regenerates."

**GEM.**  
Ministers throughout the country have joined in urging their parishioners to have all children, especially the boys, just coming into maturity to see the photoplay "The Marriage Lie," which will be shown at the Gem theatre Friday. The heroine of the picture is the daughter of a gambler. When her father dies she is left without a cent. Before long she is on the verge of starvation. According to the clergy the growing boys appear to have the idea that a professional gambler always has money and is well to do. This is the reason they want the parents to send their growing sons to see the picture and disabuse the boys that the life of a gambler is a money-making calling.

**AUDITORIUM.**  
Arnold Daly.  
Mr. Arnold Daly, the star of Metro's historical drama, "My Own United States," opened a two-day engagement at the Auditorium theatre yesterday to pleased crowds and is seen today for the last time. Mr. Daly is America's foremost actor. As Phillip Nolan—"The Man Without a Country"—the dominating character around which the story centers, Daly gives a sterling characterization. All the finer artistry at the command of this distinguished stage figure is brought into play in presenting Nolan, in whom are combined the recklessness of an idealist and the recklessness of an adventurer. Daly is noted for his characterization of Napoleon which he has presented in several plays. The most recent being "Josephine." Other current plays in which he has starred are "The Master," and "The Very Minute."

**"Prunella."**  
The Auditorium offers tomorrow and Saturday, dainty Marguerite Clark, famous Paramount star, who is seen in her very latest Paramount feature "Prunella" by Granville Barker and Laurence Houseman and directed by Maurice Tourneur, who directed "Clissie Ferguson" in "Barbery Sheep," and "The Rose of the World" as well as Jules Raucourt plays the leading male role, that of "Pierret," while his servant, Scaramel, is portrayed by Harry Leon. Others in the cast are Isabel Berwin, Marcia Harris, Nora Cecil, William J. Gross, A. Voorhes Wood, Charles Hartley, and Kenney. The scenario was made by Charles Maigne and the story is quaint, charming, and "Love in a Dutch Garden"—a story of

## Borden's EAGLE BRAND

### Food Is Baby's Greatest Need

Before baby understands a word or recognizes objects, he knows and wants food. For months food is baby's chief want—his greatest need.

Satisfying his hunger is not enough. Baby's food must do more—it must build bone and muscle, lay the foundation for a healthy body in later years.

Borden's Eagle Brand, next to Nature's own food, has been the standard infant food for 60 years. Prepared from pure, rich, cow's milk—always uniform in quality—always safe, summer and winter—Eagle Brand has often proved to be the only food that babies can retain. Little stomachs digest Eagle Brand readily, assimilate it without ever work.

Eagle Brand is always safe and pure.

a Pierret who falls in love with Prunella, elopes with her from the strict home where she lives, deserts her, finds he cannot live without her, returns to her old home whither, after a few years, she also comes.

The Columbus papers spoke highly of the star and production and the majestic theatre in that city had a wonderful week's business during the run a week or so ago. It is to be shown here for two days commencing tomorrow. The Hearst-Pathe News is an added feature.

**"Her Body in Bond."**  
For Sunday the Auditorium will offer Mae Murray, in her latest Universal feature, "Her Body in Bond," a sensational feature in which this popular star is seen as the Show Girl, who risked her soul for the man she loved, strictly high-grade setting, with surprises and thrills. The man in which "The Swami" has been

audience, for the theatre was rented outright, to produce the big punch, which happens on a stage of the theatre. A two reel comedy is also promised. Together with the Cleveland Plain Dealer Magazine.

**ALHAMBRA.**  
Tonight.

Three big stars are seen in "Vengeance," the new World-Picture, which will be shown at the Alhambra tonight. These stars are Montagu Love, Barbara Castleton and Madge Evans and each of these stars has a big, interesting role. The story told in "Vengeance" is one of the most unusual and interesting which has ever been given to the screen. It is a tale of India and London, and it is filled to the brim with surprises and thrills. The man in which "The Swami" has been

staged will prove to be a delight to every movie fan.

**Friday and Saturday.**  
Francis X. Bushman, co-star with Beverly Bayne in "With Neatness and Dispatch," a Metro All-Star Series picture which will be shown at the Alhambra theatre Friday and Saturday, wears a bizarre tramp make-up in many scenes of this unusual screen play. So realistically did he dress the part that on several occasions employees of the studio mistook him for an intruder. An amusing incident of this kind happened when Mr. Bushman's chauffeur came and told him that something was the matter with his car, suggesting that he take it to a garage for repairs. The star is something of a mechanic himself, and as he had on the old "togs" went to work to repair the car.

## KING'S

WHERE CASH WINS

# TO MAKE EVERY EGG COUNT

## PRODUCERS SHOULD:

Provide proper housing for hens.  
Gather eggs twice daily in hot weather.  
Place eggs as soon as gathered in cool, dry place.  
Market eggs frequently—twice a week, if possible.  
Do not market thin shelled, or checked eggs.  
Do not sell eggs from incubator or eggs from stolen nests.  
Protect eggs from hot sun, when taking to market.  
Produce infertile eggs for marketing.  
Sell on a quality basis. In selling eggs by the case count system, you are making up a loss of 2c per dozen on your neighbor's bad eggs.

## DEALERS SHOULD:

Candle all eggs and purchase on a quality basis. Allow the producer to see you candle and grade his eggs if he so desires.  
Pack carefully in strong, clean cases and fillers.  
Keep eggs in a room having a temperature of 70 degrees or less.  
Provide an ice box if handling 25 or more cases per week.  
Under no circumstances keep eggs in a mouldy cellar or near oil or other odoriferous merchandise.  
Ship daily in warm weather, using refrigerator cars or express service.  
—U. S. Food Administration

The Federal Food Administration in Ohio, co-operating with the Bureau of Dairy and Foods and the Bureau of Markets and Marketing, and the State Department of Agriculture and the Agricultural Extension Service of Ohio State University, has launched a statewide campaign to prevent traffic in rotten eggs.

Fred C. Croxton, Federal Food Administrator for Ohio has announced the following regulations for dealers and shippers:

(1) All dealers in eggs, including grocers and hucksters, who ship or sell to others than consumers are required to be licensed, regardless of the volume of business done.

(2) Carrier shippers and jobbers shall candle all eggs and buy only on loss off basis. Ticket bearing date of candling and license number, shall be included in each case.

Careful and conservative estimates made by the U. S. Food Administration show that for the past five years during the period from June 1 to October 1, 25 per cent of all eggs were a total loss and 40 per cent were materially depreciated in food value.

Because of this great waste of food, and because of the great cost entailed in using over-taxed transportation facilities in carrying food unfit for human consumption, the Food Administration has made a special appeal to producers and retailers in eggs to help eliminate this waste.

## "SAVE EVERY GRAIN;" APPEAL TO THRESHERS

With the wheat harvest already under way in the southern part of the state the United States Food Administration in Ohio has issued a special appeal for careful threshing in the handling of wheat in order that the common losses from this operation may be reduced to the minimum.

The appeal of the Food Administration is as follows:

"Everything should be made ready for threshing beforehand, in order that delays may not occur.

"To this end farmers are now urged to provide tight-bottomed racks or canvas for wagons hauling wheat from the fields.

"See that all sacks and wagon boxes are in condition to take the grain away from the machine without loss.

"Prepare the place for the machine to set, before its arrival by providing a canvas to spread over the ground, or remove all stones, weeds, grass, etc., in order that all shattered grain can be readily saved.

"Provide the best coal you can secure for fuel. Wood is extremely dangerous, and threshermen are being instructed not to use it except when absolutely necessary.

"If unable to secure coal for threshing, farmers should report to the office of the Food Administration, Columbus, where every possible assistance will be given.

"Thoroughly clean all bins and make sure they are perfectly tight. Lack of elevator space or freight cars will doubtless make it necessary to store much of the grain temporarily.

"Farmers may greatly help to solve their labor problems during the threshing season, and at the same time lighten the labor of the women by forming threshing circles, and by all help, excepting the threshermen, carrying their own dinners.

It isn't enough for a soldier to have good staying qualities. There are times when he must go ahead.

## PRICE OF SQUABS NOT CHANGED BY THE WAR

There is one kind of meat—and, so far as anybody has been able to ascertain, only one—that has not increased greatly in price. That one, before the war, was considered a luxury within the reach only of persons with exceptionally fat purses, but it has maintained practically its pre-war price, and is now little, if any, more expensive than other choice meats.

That meat is squab—young pigeon. At last squabs appear about to come into their own as an important source of meat supply.

This transformation is due, in large measure, to the energy and patriotic action of the American Squab Breeders' Association. This influence of that association extends to about 10,000 squab breeders, and is estimated to affect, in one way or another, not less than 50,000 persons who raise pigeons for meat.

Until within the past few months it was thought that squabs had to be fattened on wheat—and it took a lot of wheat to make a good squab. But when it became apparent that the world's available supply of wheat was not sufficient to meet the world's pressing need for bread and that the success of the allied armies depended largely on saving it, the association of squab breeders began a systematic effort to eliminate wheat as a pigeon feed by substituting corn, kaffir, sunflower seeds and other concentrated forms of vegetable protein.

The effort has been crowned with success. One squab breeder writes: "I have fed no wheat in the past six months, using whole corn instead, and have certainly had good results." Another who has substituted wild grass seeds, a feed that formerly went completely to waste, says: "I

## THIS PICTURE URGES AMERICANS TO SAVE FOOD; IT SHOWS HOW ENGLISH FOLK WERE HIT FOR TIME

England, early in the war, faced a severe food shortage. Now everyone, in all walks of life, has a

The United States department of agriculture, co-operating with the federal food administration, has given careful thought to the subject, has furnished such literature as it had pertaining to the subject and has issued some new matter, all of which is available to persons who may be interested in extending their squab-breeding operations or in entering the business. noon at 2 o'clock.

**To Enter Service.**  
Paul Weiland, who for the past  
year has been employed by the Cen-  
tral Power Company as electrical  
engineer, left this morning for his  
home in Lancaster, O. He expects  
to spend a few days there before en-  
tering the Naval Officer Training  
School at Hoboken, N. J.

**D. A. R. Meeting.**  
The Daughters of the American  
Revolution will meet on Friday af-  
ternoon at 2 o'clock at the home of  
Mrs. A. H. Rickert in Fifth street.  
The members are asked to be pre-  
sent and announcement is made that  
there is plenty of yarn on hand. Ar-  
rangements will be made for the  
Fourth of July celebration.

**Now Overseas.**  
A card was received this morning  
from Fred W. Abbott, of the United  
States Navy, telling of his arrival  
overseas. He is with Musicians,  
First Company, U. S. S. Birmingham.  
Abbott at one time was leader of the  
Buckeye Band, before he enlisted in  
the navy.

**Arrived Over There.**  
Sergeant Ralph R. Cagney, whose  
number is 1523508, has arrived  
overseas with his organization. He  
is with the Headquarters Company,  
146th Infantry, which has been sta-  
tioned at Camp Sheridan, and his  
home is in Mount street, this city.

**Old Guard, Notice.**  
There will be a called meeting of  
the Old Guard and drum corps, Sat-  
urday afternoon at 2 o'clock at Me-  
morial hall, to complete arrange-  
ments for participating in the Fourth  
of July parade. A full attend-  
ance is requested. Matthew Bausch,  
captain.

**Safe Overseas.**  
Mrs. Jennie Carson, 537 East Main  
street, received word this morning  
that her son, William, has arrived  
safely overseas. He is with Battery  
B, 324th heavy artillery.

**Safely Arrives.**  
Word has been received by Miss  
Grace Nolan, 59 Harrison street, of  
the safe arrival of Mr. Alva Gleason  
overseas. He had been stationed at  
Camp Sherman for several months.

**Leaves for Pittsburgh.**  
Paul E. Hawkins left Wednesday  
evening for Pittsburgh and from  
there will go to Confluence, Pa., to  
open the season with the Redpath  
Chautauque company through the  
eastern cities. Mrs. Hawkins (Mar-  
garet Price) and son Karl Emmett  
will remain in Newark for a few  
weeks before leaving to visit friends  
and relatives in Akron, Cleveland,  
Detroit and New York. While in  
New York Mrs. Hawkins will be the  
guest of Mrs. L. C. Griffith, who  
will return to Newark with her.

**Has Arrived.**  
Mrs. James Hartup of Webb  
street has received word from her  
son Harry of his safe arrival over-  
seas.

third floor, Friday, to help sew for  
the Belgian children and French  
peasants. The A. F. F. W. needs  
your help.

**Fractured Hip.**  
Thomas Egan, father of Under-  
taker Clarence Egan, and who is em-  
ployed at the baggage room at the  
Ohio Electric Railway station, was  
seriously injured early this morning.  
He was pushing a heavy truck, when  
he fell, and in falling threw his hip  
out of place. He was removed to  
the Newark Sanitarium in the Baz-  
ler ambulance.

**Foreigner Injured.**  
A foreigner whose name could not  
be learned, was injured at the Wehrle  
company at 10 o'clock this morning.  
A heavy piece of iron fell on him,  
breaking the right leg between the  
knee and the hip. The Bradley am-  
bulance removed him to the Newark

Sanitarium, where Dr. J. P. H.  
Stodden attended him.  
**White Carnation Sew.**  
White Carnation Review of the  
Maccabees will sew for the Red  
Cross all day Friday at the home of  
Mrs. Sturman, 94 Leroy street. Don't  
be slackers, but come and do your  
bit.

**Committee Meeting.**  
There will be a meeting at the  
mayor's office on Friday evening at  
7:30 o'clock of all committees ap-  
pointed last Monday evening to set  
in the matter of a parade for July 4.

**MAHOLM MACHINE  
STOLEN YESTERDAY**

The Buick machine belonging to  
William Maholm of Hudson avenue  
was stolen yesterday afternoon while  
Mr. Maholm was in Columbus. He  
had parked the machine which was  
practically new, near the State House  
and was gone but a few hours.  
On returning the car was gone, although  
it had been locked.

**VEILS ARE MODISH  
FOR SUMMER WEAR**

The war-bride has made veils  
popular. But the war-bride veils  
proper are not getting the warm  
reception that they might and so  
variations have been introduced  
which find more favor. Emmy  
Wehlen is shown here wearing one  
of the most alluring veils of the  
season. It is a large hexagonal mesh  
with embroidered spray, running  
through it. Soft chiffon, about four  
inches wide forms a border.

**DEPEW MAY COME  
HERE TO SPEAK  
TUESDAY, JULY 2**

In all probability Gunner Depew  
will speak in Newark after all. He  
was booked to appear here a few  
days ago but became ill and was  
sent to a hospital. He is now able to  
be out and is intending to appear in  
the cities where his engagements had  
been cancelled.

The matter was taken up with  
Secretary G. G. Barber of the War  
Work Committee this afternoon and  
Depew inviting him to come to New-  
ark July 2. The high school audi-  
torium has been tentatively engaged  
pending completion of the arrange-  
ments. Gunner Depew makes no  
charge for his services but accepts  
such contributions as the audience  
desires to give him. Depew saw  
service in the French navy, was five  
times wounded and was rescued from  
a German prison by American Am-  
bassador Gerrard.

## GRASS RUGS SEEM TO BE THE THING NOW

and there are many reasons for their use, especially during the summer season. Hundreds of good housekeepers have made their allowance go farther and have brightened and made more cheerful their home, by using these fine texture, close-woven—smooth-surfaced grass floor coverings. Numerous porches have been transformed into pleasant outdoor living rooms by the use of grass rugs. Because of their sanitary, labor saving and durable qualities, their bright and clean appearance, these pretty rugs are fast replacing other forms of floor covering for porch, sun parlor, living room, dining room, sleeping rooms and other uses.

THEN OF VITAL IMPORTANCE—they are inexpensive, being very much cheaper than wool rugs. These attractive grass rugs are reversible, one side showing pretty designs in conventional patterns with band borders, while the other side is plain. These are shown in various sizes, so that one may use a room size, or have the smaller sizes to scatter about the room.

May we show you this splendid rug?

Room Size \$10.00  
Rugs 5 feet Long \$1.50.  
Rugs 6 feet Long \$2.50.

## HAVE YOU EVER THOUGHT OF THE MANY USES OF LINOLEUMS?

It's the ideal floor covering for kitchen and bath room, on account of its cleanliness, durability and attractive appearance. It also makes a fine foundation for rugs, being shown in pretty wood patterns and plain colors. And the pretty matting patterns are very handsome for bedrooms. In fact, linoleum is an excellent floor covering for every room in the house, once you convince yourself that its use is not confined necessarily to kitchen or bath room alone. For instance, its fine for decorative screens, waste baskets, table tops, kitchen steps, covering for window boxes, kitchen and pantry shelves.

## HAVE YOU WINDOWS THAT REQUIRE ODD SIZE SHADES

Our carpet work room is ready at any time to assist you. We make window shades any size and color desired. All shades are made of the best hand made cloth, and mounted on standard rollers. In plain colors are shades of green, tan, brown, white and grey. In duplex white on one side and green or tan on the other.

TELEPHONE US and our man will gladly call on you, take the measure of your windows and quote you prices.

Closing service of consecration and devotion.

The Wednesday evening service was one marked with impressiveness beginning with a splendid song service under the direction of Mr. Alexander. Mrs. Charles Alexander, founder of the Pocket Testament League, addressed the Endeavorers, who were very much pleased with her talk. Mrs. Alexander spoke to a crowded auditorium, who were very much impressed with her address. Mrs. Alexander first gave an instance of two verses from the Bible as she heard them on the shores of England when she was a child. "These verses, 'Holding Forth the Word of Life,' and 'Holding Fast the Faithful Word,' are very much needed in every Christian life. If we consider these two verses and have them in our minds all of the time, Christian Endeavorers of Ohio shall make progress in the coming year. The Testament should be carried with you wherever you go and it will help you whenever you are in difficult places." The first Pocket Testament League was in a high school in Birmingham, England, where Mrs. Alexander attended school. Mrs. Alexander gave an instance of her little nephew, who, but ten years of age, had carried a small Testament with him, and, when fatally injured in an accident, the Bible Testament was found in his pocket.

Dr. S. Parkes Cadman of the Central Congregational church at Brooklyn, N. Y., then gave a splendid address to the Endeavorers. He said to the Endeavorers "that I wish to heartily acknowledge what has already been said about the reading of the Bible. This is the youngest convention of people which I have ever addressed, and I urge you to always keep your youthful courage and hopes. The older people have given place to the younger generation and I urge you to do your very best in youth where you may maintain useful service. Such as the present crisis, the young man or the young woman of today should help solve. John Wesley, the one great leader of his day, changed many things in his day and there are many of his followers today.

"The Christian Endeavorers of Ohio will help to bring many things to pass and you should be willing to help in every possible way. Charles Dickens was one who wrote many indictments against movements which did not come up to the standard. The men who wrote the Bible were wonderful men and there is nothing greater than the Bible. This war started in the school, college and university of Germany. As the other day a German prayed to the God of seraphim cherubim and also of Zeppelins and a few days before that a Zeppelin has taken the life of a little child. This is not our God. The war has taken off future Tennysons, Rupert Brookes and Moodys and it has literally riddled us spiritual resources from many parts of the world. When I was a boy of 11 years of age I was in a coal mine and had most of my education studying in the coal mine.

"There must be a profound, moral program. This is not a Christian nation; this is a nation with a Christian people living within it. If this were a Christian nation there would be no more saloons in Ohio. Without the Bible, there would have been no United States, democracy or any form of government. We are in this war for justice and stand for the wonderful promise of God and we should make Ohio a pleasant place for posterity. We cannot simply be saved by professing faith, but we must live it and die it. We must have the vision of the everlasting. All peoples of many denominations find God in some way and we are all united in that certain respect.

"It is necessary to take a much broader view of the Christian world. All English peoples must be closely united and should be held closely together for all time. We shall never again have a war with England as long as the sun and moon endure. Let me pledge you to take a new view of France and also of England and Italy, too. All hail to Italy tonight! May she be free forever! There was never such a statement made as that made by General John Pershing when he stood before Lafayette's tomb and said: 'Lafayette, we are here!' The soldiers and sailors of this country are splendid young men and I know that they will not do the horrible things that some of the soldiers of other countries have done. Then, this is a wonderful flag of ours, and it shall always fly over our heads and to be sure when the war is soon won."

Letters were read at this meeting from several Christian Endeavorers who were unable to attend the convention as they are in the service of Uncle Sam. One of our own Newark men, A. Ray Evans, formerly president of the Licking County C. E. Union, wrote from "somewhere in France" to the Endeavor convention, to his many friends in the convention.

Another large audience was present at the Christian Endeavor convention at the Wednesday afternoon session. Mr. Charles Alexander conducted the song service, which was enjoyed by all. The song service was followed by an address by Dr. William F. Crafts, of Washington, D. C., who is superintendent of the International Reform Bureau.

sonality, and he said in part that "there is a time coming when we shall have a country where the social order shall be better. There are many who believe now that when autocracies are abolished from the world, the war will be over. All young people's societies and every society should be studying sociology at the present time. We must be prepared for the sudden end of the war—it might come in a month and thing, we must get rid of the saloons before the Sammies come marching home. We must prepare now for the reconstruction after the war. There are three great robbers in the world now, autocracy, anarchy and alcohol.

"In this war there are twenty-four nations against four nations we are going to win and we will fight to the end. What is the use of fighting for democracy if we haven't democracy at home? We have three great enemies at the present time, Germany, Austria and drink, but the greatest of these is drink. The lines of battle in this country, such as the home line and the church line, must be kept up. The great curses must be eliminated before the war is won. The purpose of the church is to keep the morale of the people."

A telegram was sent to Senator Harding, Senator Pomerene, Secretary of War Daniels, Senator W. S. Jones of Washington state, and also a copy to President Wilson. The following is the telegram:

"State Endeavor convention asks war prohibition including the period of demobilization, not only to win the war by saving resources and manpower, but also to prevent anarchy from taking the place of autocracy. Saloons are closed in riots. Much more should they be closed in this crucial war and for the period of reconstruction."

General Secretary Stanley R. Vandersall of Ohio Christian Endeavor then gave a very interesting address and Mr. Vandersall urged that the societies present at the convention in the next year should be excellent and superior societies. He made a statement that under these present conditions there will be no Summerland Beach conference this summer. This probably came as a great disappointment to many, but he urged that the delegates make Newark conference as great as possible, since there is to be no conference at Summerland Beach. Mr. Vandersall stated that he was also very much disappointed because Daniel A. Poling, who was one of Ohio's men and is in France, could not be present at the convention. Mr. Vandersall then spoke of Mr. Poling's new book, "This is Hell," which is one of the most vivid and thrilling stories of

the heroism of our American troops at the front that have yet come from the press.

The intermediate period was then given under the direction of Mrs. Haines A. Reichel, and there were three intermediates who spoke of what the Intermediate Society of Christian Endeavor had meant to them. The three intermediates were Sheldon Moorehead of Stark county, Mr. Floyd Maguire from Hamilton, and Isabella Stillwell from Hamilton.

The recognition service for Ohio boys in national service was under the direction of Rev. J. J. Tisdall of Columbus, who has been in many camps throughout the country. The large service flag, containing 7,824 stars for the soldiers, sailors, ambulance drivers and U. S. C. A. workers who are from Ohio in the service of Uncle Sam, and five gold

stars for those who have made the supreme sacrifice. At the top of the flag, stars spelled the word Ohio. In the center stars formed the letters C. E., and at the bottom of the flag the stars formed the figures 7,824.

At the close of the program Miss Clara Bell of Kenton, O., who is a Red Cross nurse working under the direction of the Red Cross and who has been serving "over there," caring for the wounded soldiers. She told of one doctor and his three assistants, who had care of between 1,400 and 1,700 wounded soldiers and made an urgent plea for the girls to become Red Cross nurses. She urged that the Christian Endeavor girls especially between the ages of 21 and 25 to enter the army schools of nursing and to give their services in this way to care for the wounded.

## DRAWING OF NUMBERS

(Continued from Page 1.)  
The first number drawn from the bowl was 245.

The second and third, respectively, were 1188 and 818.

"Major Billy" Wellborn, a woman clerk in the provost marshal general's office, who is accredited with knowing more ins and outs of the draft than any man connected with it, drew the eleventh number and proceeded to draw all the others, as the tellers recorded them at the table and on the blackboard.

The numbers in the order drawn were:

- NUMBERS FROM ONE TO 220:**

## ARCHIE FREEMAN KILLED IN FALL FROM AEROPLANE

(Associated Press Telegram)  
Dayton, June 27.—Archie Freeman, of this city, an airplane pilot, was killed in a fall from an airplane drop at the South Moraine field today. Robert Ahlers, employed at a local plant as an igniter expert who was also in the machine was injured but will recover. No excuse is assigned for the accident.

## FLEW OVER CITY

SATURDAY, JUNE 15  
Archie Freeman flew over the city on Saturday morning, June 15, at the instigation of Col. A. E. Deeds. Freeman flew from Dayton to Granville to attend the Deeds reunion and then came down to Newark shortly before the noon hour.

Aviator Freeman also made a number of flights at the Licking county fair some years ago and carried an Advocate reporter up in one of his exhibition flights. He had visited the city several times since and was known to a number of local people.

## THESE PRO-GERMANS WILL NOT TALK FOR SOME LITTLE TIME

(Associated Press Telegram)  
Columbus, June 27.—For making treasonable remarks against the United States government, Edward August Kaibe, Columbus, and John Douglas, a farm hand of Duncan Falls, Muskingum county, were sentenced to serve five and three years respectively in the federal prison at Atlanta, Ga., by Federal Judge John E. Sawyer today. Both pleaded guilty.

Kaibe is alleged to have said, "they ought to take all the United States officials, line them up and shoot them down."

Douglas is alleged to have said: "To hell with the United States and the American flag. The Siberian roads are open—that's where we ought to be. To hell with America."

## DECLARES THE REPORT HAS BEEN CONFIRMED

(Associated Press Telegram)  
Paris, June 27.—A dispatch from Kiev under date of Wednesday, June 26, declares that the report of the assassination of former Emperor Nicholas of Russia has been confirmed. It is declared he was killed by Bolshevik troops during their retreat on Yekaterinburg.

## DETAILS ARE LACKING.

(Associated Press Telegram)  
Geneva, June 27.—The Ukraine bureau at Lausanne announced today it has received confirmation of the report that the Bolshevik authorities at Yekaterinburg, condemned Nicholas Romanoff, the former Russian emperor, to death after a short trial and then shot him. Details of the reported execution are lacking.

## AMSTERDAM, JUNE 27.—

Reports that former Emperor Nicholas has been murdered in Yekaterinburg are increasingly persistent in Moscow, according to a dispatch from that city (date not given) received today by way of Berlin.

## NEW REGULATIONS FOR DISTRIBUTION OF ALL SUGAR

Columbus, June 27.—To provide for the equitable distribution of sugar throughout the country, the United States food administration today announced new regulations which are more drastic and far-reaching than any yet promulgated.

Retail grocers, all public eating places, including boarding houses, who take care of 25 persons or more; bakers, as well as candy-makers; soft-drink manufacturers and commercial canners, cannot buy sugar after July 1, except upon certificate, which they must secure from the federal food administrator for the state.

Household consumers are not directly rationed, but they cannot buy more than two pounds at a time if they live in a town or city, and five pounds if they live in the country, except for canning purposes. They are asked to restrict their consumption to three pounds per month per person. They must not have on hand more than a 30-day supply.

A household consumption of three pounds per month per person, together with the special allowance for home-canning, means a reduction of some 25 per cent in these branches of consumption from normal, but it is still nearly double the ration in the allied countries and is simple for every economic use.

The less essential uses of sugar, including confectionaries, soft drink manufacturers and tobacco manufacturers will be hit the hardest by the new rule. Candy and soft drink manufacturers will be limited to 50 per cent of the average amount of sugar during the months of July, August and September, 1918.

Ice cream manufacturers will be entitled to 75 per cent.

Public eating places will be issued certificates upon the basis of three pounds for each 50 meals served.

Bakers will receive certificates for 70 per cent of the average amount used during July, August and September, 1917, or alternating 70 per cent of that used during the month of June, 1918.

Retail stores will receive for July purchases certificates based upon the average amount of sugar sold during the combined three months—April, May and June, 1918. They will not be allowed to sell sugar to anyone except householders without taking up the certificates required.

No manufacturer or wholesaler of sugar will be allowed, after July 1, to sell any sugar except to buyers who secure a certificate from the federal food administrator for Ohio, indicating the quantity they may buy.

For the purpose of issuing these certificates the various users of sugar are divided into the following groups:  
A—Candy-makers, soft drinks, soda fountains, chewing gum, chocolate and cocoa manufacturers, tobacco manufacturers, flavoring extracts, invert sugar, syrups, sweet pickles, wines, etc.

B—Commercial canners, vegetables, fruit, milk, medicinal purposes, explosives, glycerine, etc.  
C—Hotels, restaurants, clubs, dining cars and steamships, boarding houses, hospitals, public institutions and public eating places generally, in which term are included all boarding houses who take care of 25 persons or more.

D—Bakers and cracker manufacturers of all kinds.  
E—Retail stores and others selling for direct consumption.

Every person in these categories must, before July 1, or as soon thereafter as the federal food administrator determines, make a statement upon a form that will be provided showing the sugar they hold or have in transit on July 1.

No wholesaler or refiner can sell any sugar whatsoever unless he receives the certificate above mentioned. Any person in the above five groups who does not file his statement will receive no sugar during the war and action will at once be taken against any sugar he may have in hand in excess of 30 days' supply and he will be charged with hoarding.

The food administration, as in the past, places householders upon their honor and asks their co-operation not to hold more than a 30 days' supply, upon the basis of three pounds per person in the household.

The food administration estimates that it would cost the government \$5,000,000 to put the householder on a ration card and would require the services of 100,000 people to carry it out.

"We cannot afford the labor or the money, and if householders will cooperate it can be avoided," says Mr. Hoover.

## HAS 100,000 RESERVES.

(Associated Press Telegram)  
London, June 27.—(Via Ottawa.)—Canada already has sent 400,000 men to the war and has another 100,000 in reserve. T. C. Norris, premier of Manitoba, announced last night in addressing a meeting at Edinburg, which city he is visiting together with Premiers Stuart of Alberta and Martin of Saskatchewan.

## OPEN AIR MEETING.

A big open air meeting will be held Friday evening at 6:30 p. m. by the C. E.'s on the south side of the court house square. Program of music and speeches delivered. Everybody welcome.

## BOY INJURED AT B. & O. STATION

Frederick Cass 13, son of Mr. and Mrs. Cary Cass, of 43 De Crow avenue, was injured at the B. & O. station at 1 o'clock today.

The boy had been sent on an errand to the station and was running across the tracks, when he stumbled and fell against the high curbing. It caught him across the abdomen and he was rendered unconscious. The Bradley ambulance took him to his home, where Dr. Carl Evans was called. It is not thought the boy suffered any serious injury.

## AMERICANS TAKE 311 PRISONERS IN BELLEAU SECTOR

(Associated Press Telegram)  
With the American Forces on the Marne, June 27.—The number of prisoners captured by the Americans in their drive on the German position in the Belleau wood sector Tuesday night was officially increased today to 311. The Americans also captured eleven big machine guns, 10 automatic rifles, a quantity of small arms and ammunition and other material.

The Germans have not yet made any attempt to counter-attack. Last night was comparatively quiet on the whole Marne front. The Americans were kept busy consolidating their new positions. The additional prisoners mostly were stragglers found hiding in the wood under rocks or in the shrubbery where they had been isolated by the American fire. They were unkempt and hungry.

## EMPEROR'S BROTHER AT HEAD OF THE NEW SIBERIAN GOVERNMENT

(Associated Press Telegram)  
Amsterdam, June 27.—Grand Duke Michael Alexandrovitch, a younger brother of the former Emperor Nicholas, is reported in a dispatch from Moscow received here today by way of Berlin, to have placed himself at the head of the new Siberian government and to have issued a manifesto to the Russian people.

Advices received from Moscow at Amsterdam on June 26 said that Grand Duke Michael had headed a movement in Turkestan favoring the separation of that region from Russia.

## Guns of Odd Material.

The Scotch used leather guns in 1640 to batter Lord Conway's fortifications at Newbourne. In a tomb on the island of Chinal, near Usumacinta, Mexico, was found a cannon 4 feet 11 inches long, of terra cotta, with terra cotta bullets. It is suggested that when Cortez retired after his great fight at Seuta, Tabasco, the natives copied the Spanish guns in clay, hoping to produce the same results. Artillery was first used in war by the Moors at Algeiras, in Spain, in 1341. Cannon were first used by the English, by direction of the governor of Calais, in 1333.

## Poetry and Youth.

There are always hours, or at all events, moments, when the poet is welcome. There are always times when we enter readily into his mood and share and enjoy it with him. This is merely saying that we are all poets on occasion—that even the most prosaic of us has his moments of passionate exaltation, his grand dreams of what might be but isn't. Such moments are most frequent in youth, the time of vision. All of us are poets when we are young.

## Wasps vs Crop . . .

The despised "mud dauber," a well-known species of wasp, is credited with saving a fine crop of tomatoes and other vegetables on the farm of a local farmer, according to the St. Orleans Picayune. Observation shows that only overripe fruit was punctured by the insect and that the wasp left the plants clear of every insect or caterpillar pest during a trying season. The inherent tendency of a wasp to transfer real estate to a kitchen and parlor ceiling was thus aided by screening the windows.

## Devil and the Deep Sea.

The source of this expressive but rather cryptic proverb is not easily determined. It is usually held to have some connection with the miracle of the casting out of devils at Cadara and the rushing of the possessed swine into the waters. In Clark's Parameologia, published in 1639, it is quoted as "Between the devil and the Deep Sea." The meaning, of course, is that there is a choice only between two terrible alternatives, and the allusion may be to some long-forgotten incident of legend or fiction.

# Buy Your Clothing While Prices Are Right

We feel that we are but doing our duty toward our customers to advise them at this time through our advertisement of the fact that the time to buy their clothing right is to buy it now while we have a complete stock that was purchased while prices were reasonable. In every line we can furnish you just what you want at reasonable prices because we bought before the prices began to soar. You can buy at The Great Western now at prices less than the present wholesale price in many lines owing to our window in getting your goods early. By postponing your buying at this time is to pay higher prices when you do buy. The demand by the government for goods for the boys in service makes it harder to procure for the home trade. As a consequence prices are going up every day and the supply is growing shorter. Buy now and you reap the benefit of our earlier purchases. A delay now means higher prices and greater cost to you. Call and see our choice lines in both summer and fall goods. Yours for economy.

## TO ATTACK THE "HUN TRENCHES" AT CAMP SHERMAN

(ASSOCIATED PRESS TELEGRAM)  
Camp Sherman, Chillicothe, O., June 27.—The first night attack on hypothetical Hun trenches on the "western front" at Camp Sherman will be staged by men of the gas, flame and smoke department, engineers school, under Lieutenant L. Poucher, instructor, tonight.

The attack will be one of the most complete in the camp's history. The soldiers and officers who participate will be supplied with gas masks and steel helmets, similar to those used in France. Signals will be used from the trenches to the battalion headquarters, under the direction of Lieutenant W. D. Brunig.

Major J. Wilbourne, Wilbur Wright aviation field, will be one of a party of 12 to visit camp July 4, on an inspection trip. Six aviators of the Wright school have volunteered to visit camp on that day and give flights as part of the big July Fourth program.

"May there be none unenlisted on National War Savings day," is President Wilson's plea. Tomorrow will be the day. Buy W. S. S. tomorrow.

The price of W. S. S. advances from \$4.17 to \$4.18, July 1. Buy tomorrow on National War Savings day.

The Iron Molders' Union held a special meeting last night and invited the chairman of the Licking county W. S. S. committee and H. C. Ashcraft to appear and speak on war savings. The molders have been liberal buyers of stamps but they intend to put a punch in purchasing tomorrow.

The four-minute-men are giving splendid service this week in presenting the war savings plan to the audiences in the picture theaters.

A carrier pigeon is to be released at 2:30 o'clock tomorrow afternoon carrying Licking county's W. S. S. report to state headquarters. Solicitors are requested to send to the county chairman reports of their sales and pledges up to noon tomorrow and to report Friday night the additional pledges and sales made during the afternoon.

## Readers' Viewpoint

Editor of the Advocate.—Do you think the following verses will "pass" for war poetry?  
We are coming, Kaiser Wilhelm, one hundred million more;  
For murdered Belgium we surely will redouble.  
We've drawn our two-edged sword, we've pledged our most might,  
We'll fight it out and win it, until we gain the right.

We are coming, Kaiser Wilhelm, one hundred million souls.  
Although 'twixt you and us the Atlantic ocean rolls;  
Your boasted submarines affright us not; for we  
And our allies, thank God! are still the masters of the sea!

We are coming, Kaiser Wilhelm, one hundred million just.  
And on our flag are writ the words, "In God we trust!"  
For freedom's cause, for human rights we're in the fray,  
We'll struggle on, we'll struggle on, we'll surely win the day!

We are coming, Kaiser Wilhelm, one hundred million strong.  
We are coming, Kaiser Wilhelm, it won't be long.  
Until you see our glorious flag a-waving o'er Berlin;  
And then you'll have to answer for your great and awful sin!  
—M. R. Scott.

## IT IS SERIOUS

Some Newark People Fail to Realize the Seriousness of a Bad Back.

The constant aching of a bad back. The weariness, the tired feeling. The pains and aches of kidney ills. May result seriously if neglected. Dangerous urinary troubles often follow.

A Newark citizen shows you what to do.  
Geo. Land, proprietor drayage business, 23 Buena Vista street, says: "An attack of the grip left my kidneys in a weak and disordered condition. In the dray business I have more or less heavy lifting to do and one day while stooping down to pick up something I was seized with a sharp, shooting pain across my back that kept me in misery for several days. My kidneys were so weak I had to get up several times at night and the kidney secretions were highly colored. I went to the City drug store and got a box of Doan's Kidney Pills and used them. The pains in my back were removed and my kidneys became normal."

## GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble, Caused By Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no soreness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—(Adv.)

## THE RUSSIAN MENACE.

The biggest problem of the war is Russia. Already reports are coming that Russians are found fighting our boys in France. If Germany can go ahead and make Russia fight and work for her, the war will be greatly prolonged no matter what military victories are won in France.

It may be necessary eventually to send an army to Russia. But if we do the Russians may turn right around and side with the Germans.

In every Russian town there are German agents filling up the simple hearted people with their lies. Why not form an organization to tell the Russian people the truth?

It has been announced that Russian citizens of the United States have volunteered an army of 100,000 to fight for us in France. They could help a lot in that way. But they could help far more if they were sent to Russia as individual citizens, to counteract the German spies. If we could put in every Russian town representatives of our people whose business it should be to work against the German spies, to help the ignorant Russians find out the truth about the Germans, to deny the lies the Germans tell about us, it would do more good than armies.

The Germans have succeeded with their campaign in Russia because they understood the Russian people. If we are to win Russia back to our side, to prevent Russia from becoming an ally of Germany, we must take steps to understand the Russian people better. It is no use to try to set up any form of government there that they do not want. We must appeal to what reason they have, and open their eyes to show them what they will suffer if they become subject to the Germans.

Literature in the Russian language, motion pictures, truth telling representatives all over Russia, this is the kind of army we should send first.

## AMERICA ONLY BEGINNING.

(Ohio State Journal.)

Germany thinks it is now ending the war. But America thinks it is only beginning. We haven't got our hand in yet. Wait until the snows of next winter are melted, then we will begin to do something. To be sure, we have been doing a great deal, but it is not a patching to what will be done. We are only gathering our army. Just began a few days ago. This spring found us with 400,000. This month began with 800,000; next month there will be a million; and then 1,000,000 a month added till 1919, when the Allied army will outnumber the Hun army, when our offensive will begin.

Then it is confidently expected we will drive the enemy beyond the Rhine and by the time the summer has ended, sign a treaty of peace that will drive the Potsdam gang and the whole Hohenzollern pedigree out of its place in the sun. Rather rhetorical this may seem, but we are only giving expression to higher authority. Driving the Austrians out of Italy by our brave Allies is only a foretaste of what the Hun will feel on the west front.

What a terrible reverse they met with in their assault on Italy! They came with mighty legions and expected to drive the Italians out of Italy and at Rome become the masters of the world, but now they are hurrying back, disheartened and hungry, to their homes, where mobs are gathered to fight the Hapsburgs and drive the dynasty out of the land.

At the same time the blow has staggered Germany, and it will give it serious problems to solve, one of which is to Prussianize Austria and make it a significant parcel of the dream of Mitel Europa. In fact, the entire outlook is woefully discouraging to the Hun outlook. But the prospect to America is glowing, for it has awakened to its duty and is supplying men and money for the desolation of Germany, with liberal hands.

## AUSTRIA'S DEFEAT.

(Philadelphia Record.)

Austria's disastrous repulse in its offensive against the Italian front can hardly fail to have most important consequences. Probably it marks the last effort of the distracted dual monarchy to take an aggressive part in the war. Threatened with revolt at home, which may mean even the existence of the Hapsburg dynasty, and compelled to give immediate heed to the demands of its starving population, it is difficult to see how Austria can again become a serious military factor. From the very beginning of the war she has suffered the most humiliating reverses. Little Serbia whipped her to a standstill. Russia inflicted defeat after defeat upon her, and made over a million of her soldiers prisoners. Even Rumania was successful against her until Germany sent von Falkenhayn and some German divisions to supply brains and stamina to her armies. Italy was beating her steadily backward until treachery brought about the reverse on the Isonzo. With the morale of her troops completely restored, Italy may be able to repulse her former successes and drive the invader from her soil. This latest victory is likely to put the finishing touches to Austrian demoralization.

Such an overwhelming defeat, in which the Italians are said to have captured over 45,000 prisoners and much war material, is of deep significance, because there is every reason to believe that Germany instigated the Austrian offensive in the hope that it might succeed in forcing Italy to accept separate terms of peace. If that could be accomplished the Austrians would then be diverted to the front in France, where they would give Germany a decided numerical superiority over the Allies. A victorious offensive could thus be

resumed against the Allies in the hope of achieving something decisive before the rapidly arriving American troops restored the balance between the two sides.

If these were really the plans of the Kaiser and his general staff, and, of course, they can only be conjectured—it is easy to see how completely they have been disarranged by Austria's collapse. Instead of bringing new strength, the dual monarchy has added to Germany's burden. A powerful offensive becomes less likely, and the Kaiser may soon be driven to take up a defensive role. If it shall prove that Austria's collapse approaches in extent that which she suffered two years ago before Russia's onslaughts, the effect upon the dual monarchy's home policies may be far-reaching. A military reverse, added to an intolerable state of affairs as regards food and living conditions, may bring about the political disintegration which the world has looked for so long, but which has so far failed to materialize.

## THE LAST TO WORRY.

(Cleveland Plain Dealer.)

It is said of Zachary Taylor that almost to the day the Whigs nominated him for President no one knew what his politics was. He may not have known himself. Grant was probably as much Democrat as Republican; and in more recent years when someone suggested Rear Admiral Dewey as a possible Democratic nominee for President it precipitated a controversy as to whether the hero of Manila Bay was really a Democrat or a Republican.

These were military men, likely to be away from their home precincts on election day and hence not widely known as partisans. But what excuse can there be for doubting the politics of Henry Ford? Presumably, Ford votes. Anyway, he ran for the Presidential nomination in his own state two years ago as a Republican and carried it against Senator William Alden Smith. His candidacy—still as a Republican—was taken to other states and fared well.

But now Ford's Republicanism is suddenly questioned. Former Governor Osborn insists that he and not the Detroit manufacturer be given the senatorial nomination in the forthcoming primary. Former Secretary of the Navy Newbury also insists the honor belongs to him. Neither of these stalwart party men will concede Ford's standing as a partisan. His indorsement by the Democrats makes the difference.

The last man to worry about such a proposition as voiced by Osborn and Newbury should be Henry Ford himself. One imagines that will be exactly his attitude.

Washington dispatches tell us that the fuel administration "will not tolerate coal hoarding this coming winter," and that a system of inspection has been devised to expose the consumer who has misstated facts in his coal order. One or two facts bearing on the situation will make themselves apparent. The first of these is that fuel hoarding is about the most senseless and uncalled-for form of hoarding possible to practice. Needless stocks not only hamper other persons from getting what they need, not only subject the hoarder to bitter criticism, but lock up uselessly large sums of money. The fuel hoarder actually harms himself as much as he injures his neighbor and his country.—Detroit Free Press.

ful airplane flight on the coast of North Carolina. Military experts believe that without air reconnaissance the western line would have been broken by the superior German forces in the first year of the war. To be sure, we had already helped the enemy by giving him the submarine, but we made up for that in part by sending over the idea of the caterpillar motive power which was made the basis for the British tank. We also contributed the rapid-fire gun which is now boding the German horde back in Flanders. Add the telephone and the telegraph, and it will be seen that the inventors of America have done their full share to make warfare the complicated and perhaps indecisive thing we now see on the western front.—Nebraska State Journal.

Teacher—Which is the most delicate of the senses.  
Scholar—The touch. When you sit on a pin you can't see it, you can't hear it, you can't taste it, but it's there.—Pearson's.
